

Dashou Parking System in Nanning International Convention and Exhibition Center

Thanks to advanced features of DASHOU`S Automatic Parking Management System, DASHOU was chosen by “Nanning International Convention and Exhibition Center” to be the supplier of Parking System. Eight sets of Parking System integrated with LPR for 8 ENTRY & 8 EXIT has been successfully installed and have been working fine since their installation.

This automatic parking system serves both hourly parkers (visitors) and registered season parkers:

- A hourly parker drives to the entry and self-service takes a ticket from unmanned Entry Station
- The Entry Barrier automatically opens and he enters
- He drives to the pay-station located at exit, and gives the ticket to the guard, the guard scan the ticket by a barcode scanner, finally he pay cash and leaves.
- See video at http://v.youku.com/v_show/id_XMjYyMTkyNTAw.htm
-
- A season parker drives to the exit and swipes his card onto the card reader built-in the Exit Station
- The Exit Barrier automatically opens and the leaves
- See video at http://v.youku.com/v_show/id_XMjYyNDU1NjUy.html

Most importantly, the owner will benefit much from this intelligent automatic parking system.

Dashou PMS (Parking Management System) is the ideal solution for managing pay-to-park parking lots, for both hourly parkers and season parkers. Composed of Entry Station, Exit Station, Entry Barrier, Exit Barrier, loop Detector, Manual-pay-station, Computer and software, DASHOU PMS makes your parking lots secure, intelligent, high efficient and of course help the owner increase parking profit.
