

Dashou Parking System in residential area in Jitra, kedah, Malaysia

Thanks to advanced features of DASHOU`S Automatic Parking Management System, DASHOU was chosen by a residential area in Jitra Malaysia to be the supplier of Parking System. Two sets of Parking System for 2 ENTRY & 2 EXIT has been successfully installed and have been working fine since their installation .

This automatic parking system serves season parkers only. All season parkers no need to stop their car, once the tag attached on the windows shield was read by the Long Range RFID Reader, the barrier will automatically and immediately open. Most importantly, the mall owner will benefit much from this intelligent automatic parking system.

Dashou PMS (Parking Management System) is the ideal solution for managing pay-to-park parking lots, for both hourly parkers and season parkers. Composed of Entry Station, Exit Station, Entry Barrier, Exit Barrier, loop Detector, Manual-pay-station, Computer and software, DASHOU PMS makes your parking lots secure, intelligent, high efficient and of course help the owner increase parking profit.
