

**Dashou PMS at Cyber Park Tower 1, Araneta Center Complex, Manila, Philippines**

Thanks to advanced features of DASHOU's **PM810C Central Pay Card Dispensing Parking System**, DASHOU was chosen by Cyber Park Tower 1, Araneta Center Complex, Manila, Philippines to be the official supplier of Parking System. One set of **PM810C Central Pay Card Dispensing Parking System** for 1 ENTRY & 1 EXIT have been successfully installed and have been working fine since their installation .

This **PM810C Central Pay Card Dispensing Parking System** serves registered season parkers and hourly parkers:

- **For Season parkers.** He drives to the entry and swipes his registered card onto unmanned Entry Station, the Entry Barrier will automatically open and he enters.
- **For hourly parkers.** He drives to the entry and self-service takes a proximity card from unmanned Entry Station, after that the Entry Barrier automatically opens and he enters; Before he leaves, he walks to the Manual-pay-station which is located in central place instead of the exit, and gives the card to the guard, the guard swipes it onto the reader built-in the Manual-pay-station, then he pays cash and the guard returns the card to him, within given time (can be adjusted on software) he drives to the exit and inserts the card into unmanned Exit Station, and then Exit Barrier opens.
- Most importantly, the owner will benefit much from this intelligent PM810C Central Pay Card Dispensing Parking System.

Dashou PMS (Parking Management System) is the ideal solution for managing pay-to-park parking lots, for both hourly parkers and season parkers. Composed of Entry Station, Exit Station, Entry Barrier, Exit Barrier, loop Detector, Manual-pay-station, Auto-pay-station, Computer and software, DASHOU PMS makes your parking lots secure, intelligent, high efficient and of course help the owner increase parking profit.
