

Dashou Parking System at Ramada Hotel in Paramaribo, Suriname

Thanks to advanced features of DASHOU`s **PM910C Central Pay Parking Management System**, DASHOU was chosen by Ramada Hotel(120 pcs parking space in Paramaribo, Suriname) to be the supplier of Parking System. Two sets of **PM910C Central Pay Parking Management System** for 2 Entrances & 2 Exits with Central Pay Station has been successfully installed and have been working fine since their installation .

This **PM910C Central Pay Parking Management System** serves both hourly parkers (visitors) and registered season parkers:

- **For Season parkers.** He drives to the entry and swipes his registered card onto unmanned Entry Station,the Entry Barrier will automatically open and he enters.
- **For hourly parkers.** He drives to the entry and self-service takes a barcode ticket from unmanned Entry Station,after that the Entry Barrier automatically opens and he enters; Before he leaves, he walks to the Manual-pay-station which is located in central place instead of the exit, and gives the ticket to the guard, the guard uses a scanner to scan it,then he pays cash and the guard returns back the ticket to him,within given time (can be adjusted on software) he drives to the exit and inserts the ticket into unmanned Exit Station, and then Exit Barrier open.
- Most importantly, the owner will benefit much from this intelligent **PM910C Central Pay Parking Management System**.

Dashou PMS (Parking Management System) is the ideal solution for managing pay-to-park parking lots, for both hourly parkers and season parkers. Composed of Entry Station, Exit Station, Entry Barrier, Exit Barrier, loop Detector, Manual-pay-station, Auto-pay-station, Computer and software, DASHOU PMS makes your parking lots secure, intelligent, high efficient and of course help the owner increase parking profit.
